Implementation Alpha: Social Extremism

Marcos Juarez, Amber Vasquez, Thomas Porter

A pdf containing:

- **Any and all instructions on how to install necessary libraries to run your code**
  - Follow this link and upload the files: **https://www.openicpsr.org/openicpsr/project/112081/version/V1/view**
  - Upload the stata files from:
    - "112081-V1\confidential\main_experiment\output"
  - Click 'Run all'
- **A status report of what is working, and what needs further development**
  - Our data is having difficulty merging into a singular data frame, which is causing graphing and interaction issues
  - We need to optimize the data frame to save load time and preserve only necessary data
  - We need a second visual and linking of them for a dashboard
- **Assignments on who is responsible for completing the remaining tasks**
  - Amber: Visualization creation, linking and design
  - Marcos: dataframe cleanup and functionality
  - Thomas: visualization creation, linking, final report contribution
